

## Improved panorama plates

Panorama plates are highly appreciated by photographers. The panorama plates made by NOVOFLEX offer an easy access to this demanding field. The Memmingen based manufacturer has re-engineered its existing assortment of the panorama plates which are the first choice for beginners and is now offering four new plates for different application fields.

An essential new feature is that all plates feature a ball bearing which provides a smooth panning. Moreover, all models offer a 360° scaling with 5° increments, an integrated spirit level for accurate horizontal alignment, an immersible locking pin as well as an 3/8" and 1/4" tripod thread. Moreover, the plates are extremely slim, so that the use of wide-angle lenses is possible without any problems.

The entry into the system provides the panning base PANORAMA II. Weighing only 140g (4.9 oz) this is the turntable for „Everyday use“. The PANORAMA 48 plate has a weight of 160 grams and offers as additional feature integrated click stops for different focal lengths for more comfortable and quicker panorama shoots. The PANORAMA=Q 48 offers the same features as PANORAMA 48 and comes preassembled with the well-known Q=MOUNT quick release unit. PANORAMA=Q 6/8 II was specially designed for the use of super wide angle and Fisheye lenses, has special click-stops for this application type and also disposes of an integrated quick release Q=MOUNT.

### The panorama plates at a glance:

	PANORAMA II	PANORAMA 48	PANORAMA=Q48	PANORAMA=Q 6/8 II
Click-stops	-	16/30/36/48	16/30/36/48	6/8/10/48
Camera connection	1/4"	1/4"	Q-System (ARCA-compatible)	Q-System (ARCA-compatible)
Tripod connection	1/4" + 3/8"	1/4" + 3/8"	1/4" + 3/8"	1/4" + 3/8"
Weight	140g (4.9 oz)	160g (5.6 oz)	240g (8.5 oz)	245g (8.6 oz)
Order code	PANORAMA II	PANORAMA 48	PANORAMA=Q48	PANORAMA=Q 6/8 II

The improved panorama plates will replace the already existing models and will presumably be available by the end of October, 2014.
